

Winter Trail Access and Condition Update March 21st – March 31st, 2021

Spring Trail Highlights

- Several days of warm sunshine has greatly diminished the snowpack and, in some areas, made for challenging conditions. While there is still adequate snow coverage at most area SnoParks, expect firm and icy conditions until additional snowfall occurs. A small amount of mountain snow is expected over the weekend. See inside for more details.
- Expect high use at all developed recreation sites. Have flexibility in your plans, as many sites are filling by mid-morning and there may not be a place to park. DO NOT PARK in an illegal or unsafe location.
- Most summer trails are under at least some snow. Many are wet and muddy. To avoid damage to the trail tread and corridor, please DO NOT USE wet and muddy trails. See inside for more details.
- TRAIL CLOSURE in effect for multiple trails between Forest Road 4615 and Skyliner Road, including Lower Whoops, Pine Drops, EXT, and portions of Phil's and Storm King, due to thinning operations.
- Many area roads are closed through April 1st including the Tumalo Winter Range and those designated as winter trails. Use a map or smart phone app to make sure you know where you are.
- Snowmobiles are not allowed in the Three Sisters Wilderness, Bend City Watershed, or the "Dutchalo" closure areas. It is the visitor's responsibility to know where they are.
- Through April 30th, dogs are prohibited on the north side of Cascade Lakes Highway, including Meissner, Swampy, Vista and Dutchman Sno-Parks.

Upper Three Creek SnoPark on March 17th. Low elevation SnoParks like this one are showing increasing bare ground. Existing snow tends to be icy and firm.

Recent photo showing a sign that marks the Bend Municipal Watershed. Boundary signs like this mark motorized and non-motorized closure areas across the Forest. However, not all boundaries are marked and it is up to the visitor to know where they are.

SnoPark Conditions Table Coding:

Special area restrictions or notations relating to the table below are as follows:

- 1 = Area/trails closed to dogs except working dogs in harness on groomed snowmobile trails and only with a permit**
- 2 = Area open to dogs**
- 3 = Area/trails closed to motorized use**
- 4 = Vehicles with trailers limited to 40' overall length**
- 5 = High to extreme use with special area/trail restrictions, see sno-park information board, trail maps and area signing for full details. Very limited parking, try to avoid on weekends and holidays.**
